I am a video editor and motion designer with 10+ years of professional experience. During my 7-year-tenure at Amazon, I contributed my knowledge and skillset to three different teams within the organization. As a freelancer, I have worked with countless creatives to deliver a diverse set of projects, varying from short-form digital marketing pieces to long-form narrative projects. I excel in both collaborative team environments and independent problem-solving, and I always strive to use innovative approaches to elevate the projects I am a part of. I am eager to continue learning, collaborating and working with new teams.
